Proposals should be from non-tenured academic faculty investigators who are currently involved in experimental and theoretical high energy physics or accelerator physics research, and should be submitted through a U.S. academic institution. The purpose of this program is to support the development of the individual research programs of

outstanding scientists early in their careers. Awards made under this program will help to maintain the vitality of university research and assure continued excellence in the teaching of physics. It is expected that DOE will issue five to ten grant awards for OJI research projects during the fiscal year, depending on the number of meritorious applications and the availability of appropriated Fiscal Year 1996 funds.

DATES: To permit timely consideration for award in Fiscal Year 1996, formal applications submitted in response to this notice should be received no later than 4:30 EST November 1, 1995.

ADDRESSES: Completed formal applications referencing Program Notice 95-09 should be forwarded to: U.S. Department of Energy, Office of Energy Research, Grants and Contracts Division, ER-64 (GTN), 19901 Germantown Road, Germantown, Maryland 20874-1290, ATTN: Program Notice 95-09. In accordance with 10 CFR 600.7(b)(1), eligibility for awards under this notice is restricted to non-tenured academic investigators who are conducting experimental or theoretical high energy physics or accelerator physics research at an established U.S. academic institution. Since its debut, the program has initiated support for between five and ten new Outstanding Junior Investigators each year. The program has been very successful and makes an important contribution to the vigor of the High Energy Physics program. Applicants should request support under this notice for normal research project costs as required to conduct their proposed research activities.
